

Balkis Hossein

Previous School: Fir Vale School

Courses studied at Longley Park (2004-2006):

- A Level Arabic
- A Level Chemistry
- AS Level Biology
- AS Level Free Standing Maths

University: Sheffield Hallam University

Degree Course: Pharmaceutical Science

I came to Sheffield in 2000, not speaking a word of English and studied at Fir Vale School. I was then offered a place at Longley Park. During my time at College I was fascinated by Chemistry and knew that I wanted to progress onto a science-related course at university. I decided to study Pharmaceutical Science, as with this degree it is possible to work in laboratories within the the pharmaceutical industry. I have recently applied for a PGCE course in Science, in order to pursue my ambition of becoming a teacher. I may also consider a Masters degree and a PhD at a later stage.
