**1 BUIDLING DEFECTS**

The Deputy Principal circulated some documentation relating to tenders for the installation of the replacement Prodema cladding and asked that these be treated as 'Commercial in Confidence'. He explained that he proposed to take the costs including Kier Northern's project management and profit requirement to the Learning & Skills Council based upon the tender from Richmond Cladding Services Ltd.

Governors were concerned at the high profit margin being demanded by Kier Northern and debated whether the installation would benefit from their involvement. Consideration was also given as to whether the current economic climate might place the College in a slightly stronger negotiating position, although this was doubted.

Governors noted that there was a further meeting with Kier Northern scheduled for the following week. The Deputy Principal agreed to keep the Governing Body informed of progress.
